Maimon Speaks at KCC Commencement

With GSU's Commencement only two weeks away, we're reminded that it's that time of the year where graduates around the country move their mortarboard tassels from right to left to signify their academic success.

On Saturday, May 16, President Maimon participated in Kankakee Community College's ceremony as the commencement speaker. In honor of her remarks and to further the positive relationship between the schools, KCC made a donation of \$500 to the GSU Promise.

"We were proud to welcome Dr. Maimon as our commencement speaker," said Dr. Larry Huffman, KCC's Interim President. "GSU and KCC have a longstanding history of working together to provide quality educational opportunities to students throughout the Kankakee region. Dr. Maimon's dedication to, and her own pursuit of, educational excellence make her an ideal commencement speaker for our 2009 graduating class."

Dr. Maimon offered the graduates with three specific pieces of advice: "Be truly happy in the achievements and success of your friends and colleagues; be passionate about your work and your life; and keep learning."

Focusing on the idea of continued learning, she encouraged the grads to visit the KCC Baccalaureate Completion Center. She noted that "the last few years of study have been preparation for achieving a bachelor's degree. Don't wait. Don't rest. Finish what you started."

Dr. Maimon concluded with a piece of advice that she will echo at GSU's ceremony on June 6 – "Make us proud. Make us better. Make a difference."

Scholarship Sails On to Tallgrass

GSU art professor Heather Page will take part in *Land Marks: Restoration & Regeneration*. The art exhibit, which takes place from May 15 through June 27, at the Tall Grass Arts Association Gallery, 367 Artists Walk, Park Forest, Illinois.

The exhibit will include drawings; encaustic paintings; fiber, wood, and wax works; a group of panels created through extensive reinterpretation and reconstruction of earlier prints; and both wall and freestanding installations.

According to a recent article in the SouthtownStar, “Page's large-scale 3-D houses and multimedia panels incorporate fragments of earlier prints and reference natural forms through labor-intensive layering of papers and other materials with numerous drawing, painting, and printmaking techniques.”

Easy Easel Rules

The Department of Facilities Development and Management provides easels with flip-top charts for meetings and events. After use, internal clients are asked to remove the used sheets from the easels and leave them in the meeting room. Individuals who have taken easels/charts back to their offices are encouraged to return them as soon as possible due to an equipment shortage.
